

# ***SALSA R<sup>2</sup>***

COMPACT AND  
POWERFUL

> **Easy transfer**

The smart flip-up armrest design enables easy transfer. It can be infinitely adjusted in height, depth and angle.

**// FULL RANGE OF POWERED SEATING AND SPECIAL CONTROL OPTIONS**

Change your seating position. You can do this with three different types of tilt modules – the powered or mechanical single pivot tilt option for a basic tilt, the powered tilt module with integrated centre of gravity adjustment and the lift & tilt combi module.

The backrest can be optional reclined with an actuator or a mechanical gas strut.

Finally the full range of special controls or input devices can be added to the chair to find the best operating performance for the user.

# FULLY ADJUSTABLE SEATING SYSTEM

---

The Salsa R<sup>2</sup> is equipped with a fully adjustable seating system which can be quickly adjusted throughout the full range of width and depth, back angle and height without additional parts. The seat is designed for perfect adaptation to the user and enables prompt servicing and refurbishment. Alternative backs and cushions can be easily fitted.

---

Powered tilt module  
(0° to 30°) with centre of  
gravity adjustment to suit  
correct users balance.

New base integrated LED lights and indicators (optional)

4 point tie-down system for transportation in a vehicle. Optional with Dahl car docking system available.

Adjustable drive wheel suspension

> **Stylish and compact base**  
in 3 colours available - blue,  
red & white

### // **SALSA R<sup>2</sup> IS APPROVED FOR TRANSPORT IN A VEHICLE**

The Salsa R<sup>2</sup> is transit tested according to ISO 7176-19 and therefore approved for transportation in a vehicle.

The tests are done for the 4 point tie-down system and the optional Dahl docking system for an even easier fixation.

# ENHANCES YOUR MOBILITY. INSIDE AND OUTSIDE.

- > **Active Swing Away hangers**  
Swing away hangers for easy transfer. Also available as elevating legrest (manual or powered)

The Salsa R2 shows a great indoor and outdoor performance. Indoors the compact base and the low seat to floor height starting from 42cm ensures easy under-table access. Outdoors the adjustable suspension and the powerful motors (2-pole or 4-pole) always offer a comfortable and active driving characteristic up to a speed of 10 kph. With the simple battery access from the rear the batteries can be easily changed while the user is in the chair.

Simple battery and controller access while user is in the chair

Batteries available with 60 or 70 Ah

12,5" and 14" drive wheels

9" and 10" castor wheels

# **SALSA R<sup>2</sup>**

Compact and powerful
