

Klaxon Mobility

the art of moving

Explore the outdoors!

Quick and easy to attach

The innovative linking system allows for your favourite KLICK hand bike to be connected and disconnected within seconds without any personal assistance, so you can explore new horizons and move independently.

Universal connection hub

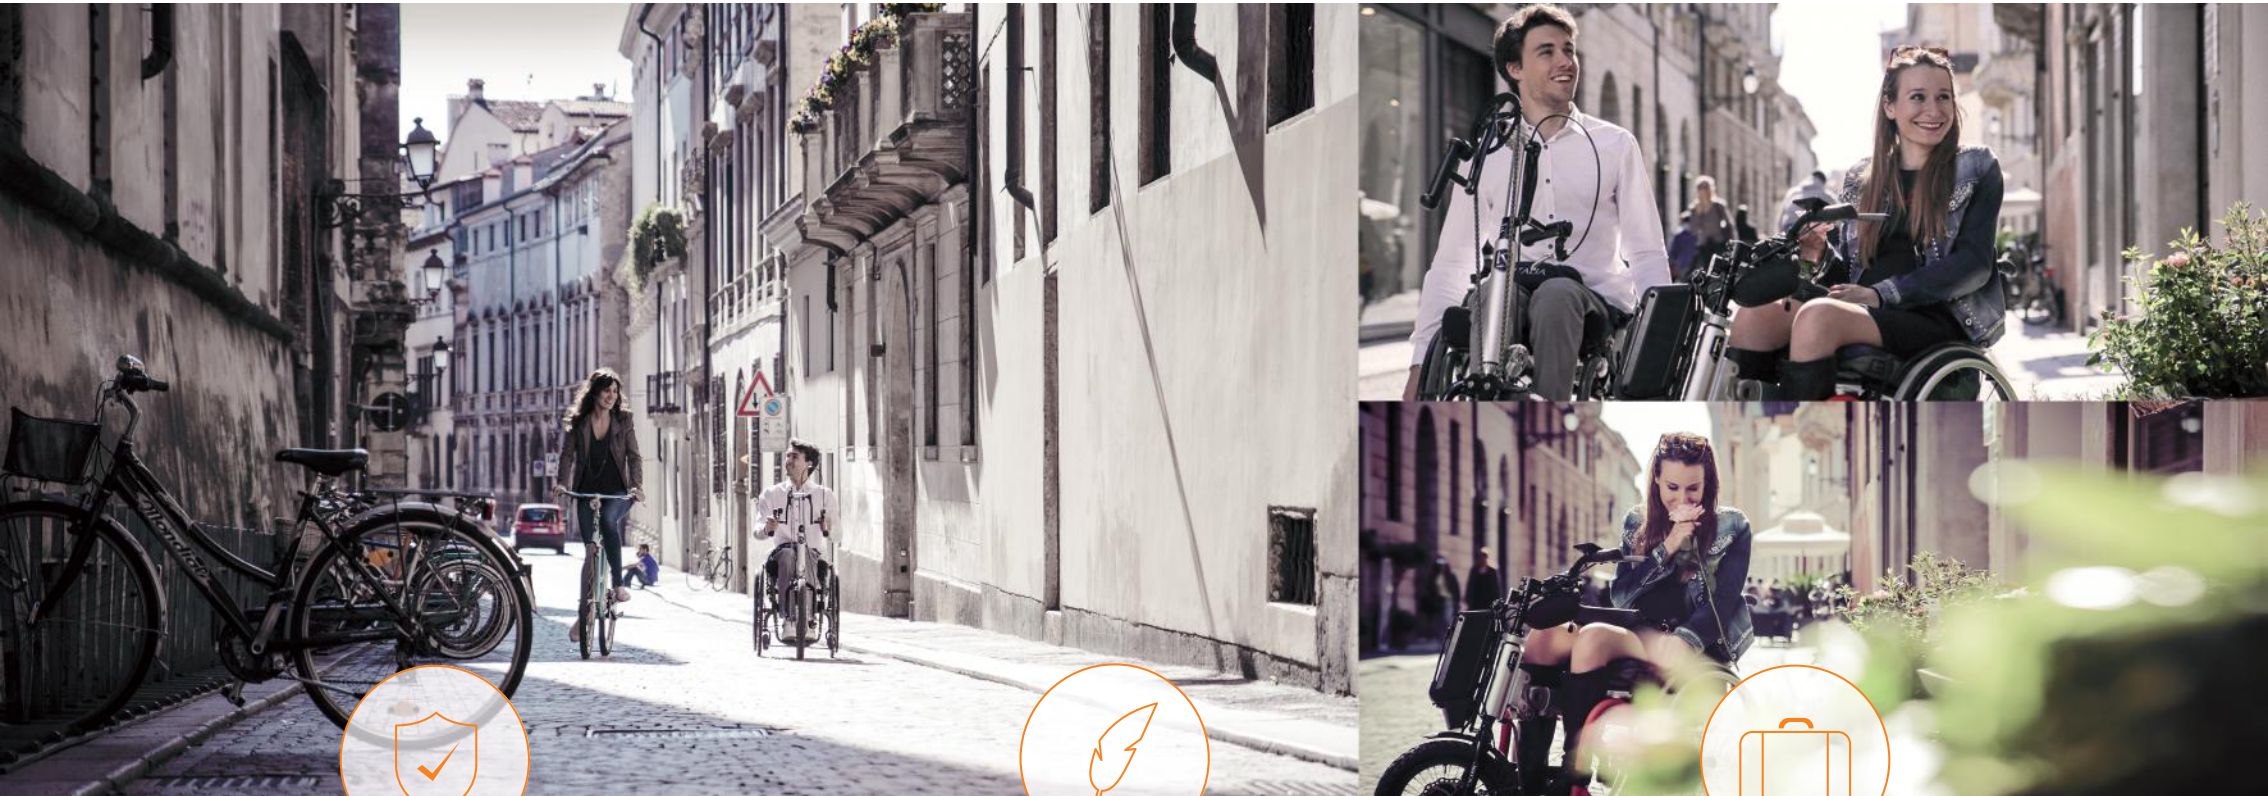

The KLICKseries is suitable for all manual wheelchair types, including foldable wheelchairs thanks to the universal connection hub. Experience a new level of freedom without compromising the manoeuvrability and comfort of your manual wheelchair.

Suitable for different settings

Your KLICK can take on any environments providing you great terrain coverage, whether you want to climb steep roads, go on an off-road adventure or manoeuvre easily through lively shopping streets or small indoor places.

Be independent, move freely...

Safe and secure

With our high level of quality and performance we want to ensure that your KLIKK takes you where you want to go, so you can move independently and engage in a more active lifestyle.

Light and easy to handle

Experience a new level of freedom, as your KLIKK will help you overcome everyday obstacles, climb steep roads and manage difficult terrains with ease. It is easily manoeuvrable allowing you to turn in small places.

Compact and suitable for travel

Explore new horizons, go on an adventurous trip or just cruise the streets for the pure joy of it! You will enjoy it!

Introducing the Klick series

Go for a ride!

KLICK ELECTRIC is our powered hand bike that will take you on an adventurous cruise, an outdoor trip with your friends and loved ones, on a shopping spree in town or help you do your day-to-day activities. It connects in seconds, is suitable for different settings and environments and thanks to its small turning radius, is easily manoeuvrable in small places.

Get your heart pumping and stay active!

KLICK MANUAL is our hand bike for those seeking an active lifestyle. It is your hand bike for training and improving your strength, stamina and cardio through recreational cycling. It is lightweight, easily manoeuvrable, and connects to your wheelchair in seconds. Explore the outdoors and go on an adventurous bike tour today!

Intelligent driving

Get the best of both worlds!

KLICK HYBRID is our innovative hybrid hand bike for wheelchairs with smart technology that connects to your wheelchair in seconds. It combines all of the health benefits of manual cycling with the reliability of powered propulsion. With our effort we were able to put all the needed components in a tiny and elegant rear bike hub. Brushless motor, batteries, electronics and sensors, an intelligent engine and regenerative braking system, all coming together in a beautiful design. It's breathtaking!

Innovative Zehus technology

The intelligent engine provides support and power when you need it and with its regenerative braking system automatically recharges when your body can deliver, providing a seamless integration and a smooth ride. The innovative Zehus technology allows you to connect your smartphone to your Klick Hybrid to customise the speed and movement to fit your preferences.
