# Cover materials

Jay Comfort is only covered using top-quality cover materials that have unique features. These materials are black (to dark grey) in colour and can be chosen for any seat or backrest in our Jay Comfort range.

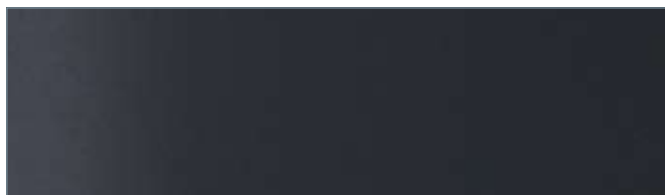

## Pro Skin

A user-friendly imitation leather that feels comfortable. The material is easy to maintain which increases its service life.

## Pro Velour

The stretch fabric is a bi-elastic material that is breathable. As the covering feels extremely soft and is elastic, it provides a high level of comfort.

## Pro Incon

Stretch rubber is extremely comfortable and moulds around the contours of the body. The composition of the stretch rubber means it can also be used for incontinent users.

## Built-4-Me cover (breathable)

It may be possible that your preferred type of covering is not included or that you would like a different colour. Please inquire about our **"Built-4-me"** options to provide you with your ideal covering.

# Comfort Seat

# The ideal modular Jay Comfort solution

## Comfort back solutions

There are three different positioning types available in the Jay Comfort back range:

- Standard - stable base without adjustment and setting options
- Webbed - sprung base that moulds around the contours of the body
- Tension adjustable - 8 straps that can be adjusted to obtain optimum back comfort

Standard

Webbed

Tension adjustable

## Support levels

Different backrest heights (50 and 57 cm) are available to offer correct support and positioning. Tailor-made backrests are also available via Built-4-Me.

50 cm

57 cm

## JayMount fixing system

- Patented system
- Hardware is intuitive
- Easy to use, even with limited dexterity
- Automatic locking mechanism
- Extremely stable
- The fixing system has a 5 cm width adjustment
- Minimal loss of seat depth
- Vertical position can be altered without adjusting the clamp

### Compatible with different types of backrest tubing

- Revolutionary design that is compatible with most manual and electric wheelchairs
- Easy-to-mount clamp
- Compatible with most backrest tubing diameters. Even mounts on non-traditional tubing such as "D" tubing

# ISO 7176-19 crash tested

## Successfully crash tested

In order to guarantee the safety and quality of our Jay Comfort seating and backrest systems, they have been crash tested. Results show that the seating and backrest systems comply with all requirements in accordance with ISO 7176-19.

# Options

Small things often cause bigger things. Certain situations require a small adjustment. Several support elements are available as options to guarantee optimum positioning, such as headrests, armrests, side cushions and tailor-made elements via Built-4-Me.

## Headrests

There are two types of headrests: our Standard headrest and the Comfort Wing headrest. These headrests provide excellent support for the head. Thanks to the flexible wings of the Comfort Wing, the head will be supported laterally and at the back. Mounting the headrest is quick and easy.

Standard headrest

Standard headrest		
	Height	Width
cm	13	26

Comfort Wing headrest (flexible)

Comfort Wing headrest		
	Height	Width
cm	12	35

Cover			
Pro Skin	Pro Velour	Pro Incon	Built-4-Me
Yes	Yes	Yes	Yes

## Armpads

Armpads are important to guarantee a good posture. They are therefore available in different types and sizes.

Armpads: short - 25 cm and long - 35 cm

P-shaped armpads: short - 25 cm and long - 35 cm

Armpads width: short - 25 cm

Standard armrest		
cm	Width	Length
	8	25
	8	35
	12	35

P-shaped armrest		
cm	Width	Length
	12	35
	12	46

## Side cushions

Side cushions provide extra lateral stability, feel extremely comfortable and contribute to good posture.

Measurements			
	Height	Width	Depth
cm	13	3	36

## Calf plates

The bowl-shaped design and comfortable foam support and stabilise the lower legs.

Measurements			
	Height	Width	Depth
cm	19	19	5.5

## Superior Clinical Seating

Do you require a suitable solution to optimise the stability, comfort, functionality and positioning for the wheelchair user?

Request our Jay - Superior Clinical Seating brochure to view our extensive range of seating cushions and backrests.
